Professional Experience

Roger is a Civil Engineer (FICE) with over 40 years' experience in the UK, Europe and some 30 other countries. He has lived in some 10 countries outside the UK, which has given him a good appreciation and understanding of other cultures, their customs and sensitivities.

He worked for a large firm of Consulting Engineers, and now has his own Company. While still active Consulting, Roger now does a lot of Expert Witness work, and has given evidence in Court on some 15 occasions. Working as an Expert has also shown him the real value of Mediation.
